- 408 C **POSTAL HISTORY: 1827-1878 Roman States:** Fine collection of prestamp entires with emphasis on 'Saint Marks' which were used by the clergy instead of postage on all official correspondence until (officially) the end of 1862. Many of the covers also bear the parochial seal which in turn depicts the particular Church's Patron Saint. The decree of free postage for the clergy was withdrawn at the end of 1862, however letters escaped postage for many years afterwards and correspondence in this collection is dated as late as 1878. The covers are in unusually good condition, each bearing fine and clear handstamps or Seals from a variety of Bishops and Church dignitaries throughout Italy. Fine collection on beautifully annotated pages worthy of extension and further development. (51)..... **\$1,200 - \$1,500**
